

SWEATSHIRT SIZE GUIDE

Top tips from customers who have previously bought sweashirts.

- *“At this young age my kids grow what feels like incredibly fast, so I buy the next size up with my eyes closed, as a working mum with a budget it saves me money in the long run.”*
- *“I like my child to be dressed smart and don’t mind buying again, the age on the label is usually the best size for my boy”.*
- *“I have found the jumpers to be really good quality, this is my second time buying them, as previously I bought from another shop and they used to bobble after only a few washes”.*

What do we suggests.

We have a size chart below and as you can see from the illustration below (arrow) this is the place you should be measuring your child to get the best size. The sweatshirts are designed specifically taking into consideration that children will get them dirty and that they need to be regularly washed. We do agree with customers who recommend going a size up, however this is at the discretion of the customer.

THE MEASUREMENTS ARE THE SAME FOR SWEATSHIRTS AND V-NECK SWEATSHIRTS.

SIZE – IN YEARS
CHEST FIT - INCHES
COLLAR SIZE (CM'S)

3-4	5-6	7-8	9-10	11-12	13	S	M	L	XL
20-22	22-23	23-25	25-27	28-30	31-32	32-34	34-36	38-40	42-44
51-56	56-58	58-63	63-68	71-76	79-81	81-86	86-91	96-102	107-112
